cellebrite
delivering mobile expertise

Don't miss your chance to sign up for **Cellebrite's Certified Logical Operator (CCLO) training course!** Cellebrite will be hosting the two-day course prior to the National Cyber Crime Conference, April 25-26, 2015 at the Sheraton in Norwood, MA. This course is designed for the first responder and the basic to intermediate investigator and/or examiner.

The CCLO course builds on the concepts imparted in the Cellebrite Mobile Forensic Fundamentals (CMFF) course and exposes students to the fundamentals of mobile device investigations, logical extraction of user data, and analysis of mobile devices. Operation of the Cellebrite UFED product to perform a number of hands-on logical extractions on various mobile devices with a variety of operating systems is a key component of this class. Skill sets also include creating Safety SIMs and extracting evidentiary data from SIM cards. Participants also create reports on findings and are exposed to the free UFED Reader and how to use that to multiply investigative efforts.
