Hi Doug,

Here is today's golf tip:

Tip

Remember Series - Stretch Stretch

(You can also view this tip after you log in on the members page and homepage)

Description

In this tip I talk about increasing the width of your swing arc. This helps in many ways, it makes the widest arc possible, makes the golf swing very consistent and will increase clubhead speed. The wider the arc the faster the golf club will move. By stretching the lead arm into the backswing and the back arm into the follow through this maintains the diameter of the circle or your swing arc. This is a great way of getting rid of a major swing flaw.

Until next time,

Paul Wilson
