PACIFIC LUTHERAN UNIVERSITY
OFFICE OF ADMISSION

While you and your student are currently working on choosing a college, we know that what happens after college graduation is probably also on your mind.

PLU is proud of what our graduates go on to accomplish, and proud of the numbers that highlight those accomplishments. Here are just a few:

- 93% of the Class of 2013 was either employed or accepted in graduate school within 6 months of graduating.

- 82% of PLU graduates complete their degree in four years.

- 100 PLU graduates have been named Fulbright Scholars.

- Over 70% of PLU students applying to medical school are accepted (the national average is 45%).

- 100% of Music Education graduates are employed upon graduation.

- Two years in a row PLU Nursing students achieved the highest pass rate on the NCLEX-RN exam among all other programs in the state.

- And the list goes on (Click here to see our graduate outcomes webpage).

We believe our students should be well-prepared for success, whether they immediately enter the workforce, apply to graduate schools or go into a volunteer program. Our Career Connections Office, Academic Internships Office and Center for Community Service & Engagement all provide numerous opportunities for students to engage in the appropriate next steps toward their future after being a PLU student.

Most importantly, PLU challenges and supports our students in their search for vocation – to consider and explore where their passions and the world's needs intersect, and how they will best use their individual talents, passions and values to contribute meaningfully to the world. Click here to read about PLU's upcoming 'Day of Vocation'.

Questions about next steps in the college choice process, or even about after college?

Please contact us at admission@plu.edu or 800-274-6758.
