Greetings!!

Thank you so much for taking the time to talk to me the other day and your willingness to assist me in my research. I have gotten my vacation approved and will be completely free between March 30 and April 10. Anytime during that window would be fine with me and I will work around your schedule. I was also wondering if you could provide me the contact information for your companion at King County so as to touch base with him as well.

Once I am done with my thesis I would love to expand on my research and do some work with you guys. I think we could do much to further the research on civilian LE and intelligence.

Again, thanks! Be safe!
Joe Harris
