Thanks Doug!

I will talk with Donna and ask whether she thinks we should meet with you together or separately. You will be using funds from both grants.

And yes, I think we'll have a team that in the nomenclature of the book "The Boys in the Boat", swings (as in all oars in the water at the same time and with the same force). If you haven't read it, you should… lots of Seattle/WA history as well as an eye opening view of the world as it was before the beginning of WWII. Great description of what a real team can do too.

I'll get back to you on a good date for a visit and look forward to seeing your shop.

Faye

Hi Faye! It was a delight meeting with you and finding out that we do indeed share many aspects in our background. This will allow us to quickly work together as a team! Please let me know when you can make a visit over here and I will give you the ten-cents tour as well as a Keurig cup of coffee!!
Thanks for the SHSP grant plan outline; the information is of great situational awareness value!
Should you need anything from the fusion center or from me, please don't hesitate to give me a call!
Doug

Good morning Doug,

I'd meant to do this Friday after you left, but things got away from me. It was wonderful to meet you and discover that we had a few things in common. And thank you for making the trip over here to meet. Next time, your Fusion Center.

Attached is the information that was used in the FFY13 SHSP grant for the Fusion Center. I will look for other pieces of the proposal, but this looks the most complete. I hope it will help you develop your plan for FFY15.

Wishing you a terrific week.

Faye Landskov
