Subject: Vehicle Priorities
Date: Thursday, October 22, 2020 4:47:36 PM

Yes, another email about vehicles. The captain has asked me to compile a list of vehicle priorities and I am seeking your input.

- Replacement vehicles for S/ACT, both PIUs and van
- Cargo van to use instead of DART bus to move equipment
- Replacing Chargers with PIUs

What else?

Please let me know which vehicles you have at your precinct that have been assigned to the CRG. This includes all ACT vehicles, Bike Trucks, Chargers and Traffic PIUs. These vehicles are assigned to CRG and subsequently the maintenance falls upon us (me) to get them to Charles Street as their PM becomes due. Most of the vehicles are/were due/overdue and we are schedule to get them into Charles Street over the next few weeks. (Vehicles are not scheduled for maintenance during election week.)

NEEDED ACTION:

Check your fleet deck/lot for any CRG vehicle and let me know the #s.

Thank you.

1. If you or your squad is going to 'keep' a vehicle at the precinct I need to know which one it is.
 - a. Make sure you arrange a parking spot with the precinct station master prior to this – a Charger was left at the West Precinct last night.
2. We are not authorized for take home vehicles. All CRG vehicles assigned are to be left at a Seattle police facility and be available all 7 days for CRG use.

Let me know if you have any questions or comments.

Chris,

Here are the West ACT vehicle numbers. Each vehicle has an assigned spot at the west precinct. The van, 93150, is solely assigned to our squad because of all the gear it has in it for crowd management events and tactical missions.

93150	Van		
33415	PIU	(No cage)	Used for crowd management and tactical missions as well
33410	PIU	(No cage)	Used for crowd management and tactical missions as well

Good morning everyone – Regarding the electrical panel outage, I am planning to reschedule the work to 10/20 Tuesday morning, 0300-0500

Please let me know if that is not favorable and I will choose a different date.

The reason for the switch is to avoid any chance of impacting the county-wide radio system transition going on at the dispatch area on the night of my originally planned outage date.

I will reach out again when the Tuesday 10/20 0300-0500 time and date is confirmed with my electrician crew and IT.

Hi again Lieutenant Bray, Sergeant Kelley, Sergeant O'Neil, and Sergeant Bourdon – I plan on returning to your Precinct to do work inside the building starting Thursday October 1.

Please note that there are two activities I'd like your approval on:

- On Friday 10/2, between 0600-1430, I plan to do a concrete core hole through the exterior wall by the bunk rooms
 - The coring will be noisy and create building vibrations in the areas nearby
 - If you need me to do the work during a different time window or a different day, please let me know and I will get back to you with an alternate time request
- My proposed date for the Panel X2W shutdown is Tuesday morning 10/13, 0300-0500
 - I am confirming this with IT and the City's Change Management process
 - Please let me know if you would like the shutdown done on a different morning
 - You will always have the ability to tell me to change the date, stop the work, or quickly switch the power back on in an emergency situation
 - Please note this is the only activity that will be done inside the SPOC area
 - Panel shutdown will cut power to desktop computers, copiers/fax machines/printers, body camera battery pack chargers, smart displays, and the Polycom conference call unit in the SPOC Conference Room

Typical work hours will be 0600-1430, M-F.

All work (except the Panel X2W shutdown) will be done from the corridor outside the SPOC area and the bunkrooms.

It is the same electricians from Sequoyah Electric continuing from where they left off in early September.

Please do not hesitate to contact me with any questions or concerns you have.

Good afternoon everyone – This is my final reminder email for the power outage to Panel X2W on Tuesday morning 10/20 from 0300-0500.

A quick recap of the effects of the work:

The panel shutdown will cut power to desktop computers, copiers/printers/fax machines, body camera battery pack chargers, smart displays, and the Polycom conference call unit in the SPOC Conference Room.

You always have the ability to tell me to change the date, time, stop the work, or quickly switch the power back on.

One last recommendation from our IT department that was shared with me – please power off your computer at the end of your last shift prior to the power outage on Tuesday morning.

Feel free to contact me with questions or concerns, no matter how close to the outage it is.

Subject: EV Charging Stations - W Prec Interior Conduit Installation

Hi again Lieutenant Bray, Sergeant Kelley, Sergeant O'Neil, and Sergeant Bourdon – I plan on returning to your Precinct to do work inside the building starting Thursday October 1.

Please note that there are two activities I'd like your approval on:

- On Friday 10/2, between 0600-1430, I plan to do a concrete core hole through the exterior wall by the bunk rooms
 - The coring will be noisy and create building vibrations in the areas nearby
 - If you need me to do the work during a different time window or a different day, please let me know and I will get back to you with an alternate time request
- My proposed date for the Panel X2W shutdown is Tuesday morning 10/13, 0300-0500
 - I am confirming this with IT and the City's Change Management process
 - Please let me know if you would like the shutdown done on a different morning
 - You will always have the ability to tell me to change the date, stop the work, or quickly switch the power back on in an emergency situation
 - Please note this is the only activity that will be done inside the SPOC area
 - Panel shutdown will cut power to desktop computers, copiers/fax machines/printers, body camera battery pack chargers, smart displays, and the Polycom conference call unit in the SPOC Conference Room

Typical work hours will be 0600-1430, M-F.

All work (except the Panel X2W shutdown) will be done from the corridor outside the SPOC area and the bunkrooms.

It is the same electricians from Sequoyah Electric continuing from where they left off in early September.

Please do not hesitate to contact me with any questions or concerns you have.

Kevin Sahara

Hi again everyone – I am confirmed with IT and my electrical crew for the outage to Panel X2W on Tuesday morning 10/20 from 0300-0500.

I'll send one final reminder before the work.

As always, if anything comes up or if a questions pops into your head, please do not hesitate to reach out to me. Thank you!

Good morning everyone – Regarding the electrical panel outage, I am planning to reschedule the work to 10/20 Tuesday morning, 0300-0500

Please let me know if that is not favorable and I will choose a different date.

The reason for the switch is to avoid any chance of impacting the county-wide radio system transition going on at the dispatch area on the night of my originally planned outage date.

I will reach out again when the Tuesday 10/20 0300-0500 time and date is confirmed with my electrician crew and IT.

Good afternoon everyone – This is my final reminder email for the power outage to Panel X2W on Tuesday morning 10/20 from 0300-0500.

A quick recap of the effects of the work:

The panel shutdown will cut power to desktop computers, copiers/printers/fax machines, body camera battery pack chargers, smart displays, and the Polycom conference call unit in the SPOC Conference Room.

You always have the ability to tell me to change the date, time, stop the work, or quickly switch the power back on.

One last recommendation from our IT department that was shared with me – please power off your computer at the end of your last shift prior to the power outage on Tuesday morning.

Feel free to contact me with questions or concerns, no matter how close to the outage it is.

Good morning everyone – Regarding the electrical panel outage, I am planning to reschedule the work to 10/20 Tuesday morning, 0300-0500

Please let me know if that is not favorable and I will choose a different date.

The reason for the switch is to avoid any chance of impacting the county-wide radio system transition going on at the dispatch area on the night of my originally planned outage date.

I will reach out again when the Tuesday 10/20 0300-0500 time and date is confirmed with my electrician crew and IT.

Subject: EV Charging Stations - W Prec Interior Conduit Installation

Hi again Lieutenant Bray, Sergeant Kelley, Sergeant O'Neil, and Sergeant Bourdon – I plan on returning to your Precinct to do work inside the building starting Thursday October 1.

Please note that there are two activities I'd like your approval on:

- On Friday 10/2, between 0600-1430, I plan to do a concrete core hole through the exterior wall by the bunk rooms
 - The coring will be noisy and create building vibrations in the areas nearby
 - If you need me to do the work during a different time window or a different day, please let me know and I will get back to you with an alternate time request
- My proposed date for the Panel X2W shutdown is Tuesday morning 10/13, 0300-0500
 - I am confirming this with IT and the City's Change Management process
 - Please let me know if you would like the shutdown done on a different morning
 - You will always have the ability to tell me to change the date, stop the work, or quickly switch the power back on in an emergency situation
 - Please note this is the only activity that will be done inside the SPOC area
 - Panel shutdown will cut power to desktop computers, copiers/fax machines/printers, body camera battery pack chargers, smart displays, and the Polycom conference call unit in the SPOC Conference Room

Typical work hours will be 0600-1430, M-F.

All work (except the Panel X2W shutdown) will be done from the corridor outside the SPOC area and the bunkrooms.

It is the same electricians from Sequoyah Electric continuing from where they left off in early September.

Please do not hesitate to contact me with any questions or concerns you have.

Kristine, Brian and Matt,

This is a bit of a longshot, but we have a standing Tree-lighting Celebration meeting next Tuesday 2-3 p.m. Would you be able to join the meeting on this date/time?

FYI, also working on scheduling a larger retailer briefing meeting that we hold annually before Tree-lighting to share our plans, address any questions retailers may have, etc. I'll send some dates/times to consider for this meeting soon.

Thanks,
Jenn

CAUTION: External Email

Hi Matt,

Thanks for checking in. Yes, we are coordinating the annual Tree-lighting Celebration again this year, but it will be very different from past years. We will not be actively inviting people to come downtown, but rather to watch the live showing on television. In short, instead of physical-event-focused, it will be very broadcast-focused. The elements included will be lighting up the tree at Westlake Center, the star on the Macy's building and the lights in Westlake Park. We will have live talent helping with the countdown, but nothing public facing, all directed toward the broadcast camera (inside nearby buildings). The tv cameras will be poised to get the shots they always do for the live showing. We shared this with the Special Events office a while ago and will bring them back into the conversation as our planning is getting traction.

On my to-do list is to set up a meeting with you, Sergeant Kraus, and whoever else from your dept. you'd like to join, to discuss tree-lighting and how we'll approach it considering scenarios: if a crowd of people do come downtown out of tradition, potential protest activity, etc.. I'll work with Kristine to schedule something outside of our regular monthly meetings to address this topic specifically.

Thanks,
Jenn

Greetings Jacqueline and Don,

I apologize for having to abruptly end our meeting last Thursday afternoon but I am sure you saw on the news that one of my officers was viciously attacked near Denny Park. During our meeting, Sergeant Kraus mentioned staffing for the annual tree lighting ceremony and I wanted to check back with you to find out whether that event is still happening this year. Lieutenant Alcantara checked with our Operations Center personnel and they were under the impression that since the tree lighting is typically a large permitted event and no permits are currently being issued, that it was likely not happening. Would you please advise?

Thank you!

Hi there,

Another meeting... each year DSA hosts a large retailer briefing meeting that we hold before Tree-lighting to share our plans for the day after Thanksgiving, address any questions retailers may have regarding protest activity, etc. Other SPD representatives who have attended in the past include Christopher Kelley and Tony Baily. Let me know if they should be included again for 2020. And, please let me know if any/all of these dates and times work for you and I'll send out a calendar invite:

Thursday, Nov. 12

11 a.m.-12 p.m.

Tuesday, Nov. 17

10:30-11:30 a.m.

1-2 p.m.

Wed, Nov. 18

3-4 p.m.

Thanks,

CAUTION: External Email

Hi there,

Another meeting... each year DSA hosts a large retailer briefing meeting that we hold before Tree-lighting to share our plans for the day after Thanksgiving, address any questions retailers may have regarding protest activity, etc. Other SPD representatives who have attended in the past include Christopher Kelley and Tony Baily. Let me know if they should be included again for 2020. And, please let me know if any/all of these dates and times work for you and I'll send out a calendar invite:

Thursday, Nov. 12

11 a.m.-12 p.m.

Tuesday, Nov. 17

10:30-11:30 a.m.

1-2 p.m.

Wed, Nov. 18

3-4 p.m.

Thanks,

Jenn

Kristine, Brian and Matt,

This is a bit of a longshot, but we have a standing Tree-lighting Celebration meeting next Tuesday 2-3 p.m. Would you be able to join the meeting on this date/time?

FYI, also working on scheduling a larger retailer briefing meeting that we hold annually before Tree-lighting to share our plans, address any questions retailers may have, etc. I'll send some dates/times to consider for this meeting soon.

Thanks,
Jenn

CAUTION: External Email

Hi Matt,

Thanks for checking in. Yes, we are coordinating the annual Tree-lighting Celebration again this year, but it will be very different from past years. We will not be actively inviting people to come downtown, but rather to watch the live showing on television. In short, instead of physical-event-focused, it will be very broadcast-focused. The elements included will be lighting up the tree at Westlake Center, the star on the Macy's building and the lights in Westlake Park. We will have live talent helping with the countdown, but nothing public facing, all directed toward the broadcast camera (inside nearby buildings). The tv cameras will be poised to get the shots they always do for the live showing. We shared this with the Special Events office a while ago and will bring them back into the conversation as our planning is getting traction.

On my to-do list is to set up a meeting with you, Sergeant Kraus, and whoever else from your dept. you'd like to join, to discuss tree-lighting and how we'll approach it considering scenarios: if a crowd of people do come downtown out of tradition, potential protest activity, etc.. I'll work with Kristine to schedule something outside of our regular monthly meetings to address this topic specifically.

Thanks,
Jenn

Greetings Jacqueline and Don,

I apologize for having to abruptly end our meeting last Thursday afternoon but I am sure you saw on the news that one of my officers was viciously attacked near Denny Park. During our meeting, Sergeant Kraus mentioned staffing for the annual tree lighting ceremony and I wanted to check back with you to find out whether that event is still happening this year. Lieutenant Alcantara checked with our Operations Center personnel and they were under the impression that since the tree lighting is typically a large permitted event and no permits are currently being issued, that it was likely not happening. Would you please advise?

Thank you!

Matt

Subject: Augmentation Shifts for Second Watch West Patrol
Date: Monday, October 5, 2020 1:55:13 PM

Hello All,

Second Watch West is seeking officers to augment shifts on the below dates in October. These shifts will be 1100-1600 hours only. If you are available, please reply directly to me with the dates you can work and also advise me if you are going to be doing a shift extension that day (e.g., you are working first watch until 1200 or starting CRG at 1500), or if it is your day off. I will be giving priority to officers working a shift extension to reduce overtime costs. Thanks for the replies and all of the hard work!

10/06 – 1 Officer
10/07 – 2 Officers
10/13 – 1 Officer
10/19 – 1 Officer
10/24 – 1 Officer
10/25 – 1 Officer
10/30 – 2 Officers
10/31 – 3 Officers

Subject: Finger Print Readers

I am working on acquiring 5 readers and need the names of officers that are trained to use them (will be using them). My plan is to have one available to each squad during their work week.

ACTION REQUIRED:

Name of officer(s) trained to use them.

Verify if your computer/MDT has Mobile ID application installed completely/accurately.

Subject: Email Address
Date: Wednesday, October 21, 2020 11:18:52 PM

Greetings,

As we are all aware there are a lot of moving parts right now. I got this email set up for all the mechanics. I will send this out to all the bike squads and riders in the near future. If they have an issue with their bike they will send it to this email: SPD_West_Bike_Mechanics@seattle.gov. They will need to explain where their bike is and what the issue is with the bike. When the bike is fixed please respond to the rider and the email address. That way there is a record of it being done and what was requested. We still need to fill out the green book and everything else is the same. Also, with this email we can send a request for parts or a tool if you notice anything getting low. That way I can respond to it and everyone will see that it has been addressed and full understanding of what is going. That way we can all be aware and on the same page. I had IT remove people who are no longer associated with bikes and add new mechanics. If you got this email and are no longer with bikes or need to be on this email group let me know and I will follow up with IT. I want to get all the bugs worked out before I send this email out to all the riders.

Thank you,
Scott Luckie

Date: Thursday, October 8, 2020 5:01:58 PM

Good Afternoon,

My highest priority is the well-being of the officers assigned to the Patrol Operations Bureau. When I was placed in charge of the Bureau earlier this year, I began looking at replacing our current deployment model with something that provided you all with more time to recuperate between work weeks that also allowed us to deploy more effectively. While the events of this Summer put that work on hold, with concurrence from Chief Diaz, I have begun looking at an alternative patrol shift model in earnest once again. To that end, there is much work that needs to be done before implementing any significant changes to our current shifts to include, most importantly, negotiations with SPOG and SPMA.

To be clear, while the work is on-going, there is not currently a plan to implement an alternative work schedule in any of the precincts. There have not been any alternative shift hours proposed or agreed upon with either labor union or approved by the Chief. Any rumors or messaging to the contrary are incorrect and irresponsible.

DAMASCUS GLOVE SIZING CHART

MEASUREMENT	GLOVE SIZE
7" (17.8cm)	X-SMALL
8" (20cm)	SMALL
9" (23cm)	MEDIUM
10" (25cm)	LARGE
11" (28cm)	X-LARGE
12" (30.5cm)	XX-LARGE
13" (33cm)	XXX-LARGE

HOW TO MEASURE

Usually one hand will be slightly larger than the other, typically the strong hand (e.g. the right if right handed). Using a tape measure, wrap the tape around the hand at the widest part as shown and make a loose fist. Round the measurement to the nearest whole inch. Locate your size from the chart above.

All,

The Seattle Police Foundation (SPF) has purchased fire resistant riot gloves and balaclavas for the department. CRG has been prioritized for issue on Monday. Please see the attached glove sizing chart and record the sizes you will need (Example 8 medium and 3 large) and reply back to me by Saturday.

Thanks,

Kirk

Subject: OIS FRB Availability?
Date: Monday, October 26, 2020 5:09:38 PM

I am looking for your availability to attend an OIS FRB. This board will be held in the basement of HQ – in person. The board generally lasts all day. We are looking at either 11/17/2020 or 12/8/2020. This case occurred on 4/29/2020 in the South Precinct near 4108 37 Ave S. If you had a significant role in the incident we will need you to mark yourself as unavailable. Also, this is just to get your availability, if you are selected for the board I will notify you asap.

Thank you!

You have been selected by AC Cordner for this OIS FRB on 12/8/2020. Shortly you will receive an outlook invite for the board as well as an invite for the scene walkthrough - which generally occurs the Monday prior to the board. This will be an in-person board in which we will be following safe social distancing guidelines.

Please feel free to reach out to us here in FRU if you have any questions.

Subject: Hearing Study

The Safety Officer, Mike Learned needs 5 volunteers to wear a decibel meter during the protest 10/3. He would like them spread around the platoons and on those most likely to be engaged with the crowd. This may be used to justify hearing protection for the officers.

The devices would need to be picked up Friday 10/2, so 2nd Platoon would be the best ones to wear them.

Let me know if you can identify 5 volunteers and what their names are.

Thanks,

Kirk

Subject: RE: Community Response Group (Request - Activity & Project)

Question:

Our squad had a late auto theft arrest last week. Our typical OT coding would be **SP1612TA**, but with the new SPPAT project code, I can't enter that number. Will it get paid okay through the general CRG activity code? I have previously received timekeeping emails when I mistakenly coded OT SPADMINOPS.

Thank you.
Jeff

All,

I just spoke to SPOC.

Last night, we incurred overtime that was protest related. I talked with SPOC and if the overtime is still associated with protest activity we will use their code and submit to SPOC.

For OCT, unless an future IAP has a new #, we can continue to use the ENDD code

Project: SPSPECIALEV
Activity ID: SP20OC334

Subject: RE: Community Response Group (Request - Activity & Project)

Question:

Our squad had a late auto theft arrest last week. Our typical OT coding would be **SP1612TA**, but with the new SPPAT project code, I can't enter that number. Will it get paid okay through the general CRG activity code? I have previously received timekeeping emails when I mistakenly coded OT SPADMINOPS.

Thank you.

Jeff

Importance: High

Hello all,

Could you please send me two shifts you would like to work for November and December? Please list the hours you'd like to work and who you would work with. Keep in mind that we are now "red-dotted" from November 3-10 so if you want a shift one of those days, it might be cancelled depending on our crowd management issues. Also, these shifts might be wrapped into Christmas beats so be flexible.

Thanks for working these shifts and be safe.

Brian

Subject: November/December MID shifts

Importance: High

Hello all,

Could you please send me two shifts you would like to work for November and December? Please list the hours you'd like to work and who you would work with. Keep in mind that we are now "red-dotted" from November 3-10 so if you want a shift one of those days, it might be cancelled depending on our crowd management issues. Also, these shifts might be wrapped into Christmas beats so be flexible.

Thanks for working these shifts and be safe.

Brian
