Business Rules for this report:

1. The "From" dates for the units of assignment in the data are prior to the date of the report.
2. The "To" dates for the units of assignment in the data are later than the date of the report.
3. The "Unit Number" for an individual is present.
4. The assumption is that changes to individual names, units of assignment, ranks, court codes, effective dates, and other data used in this report are made in a timely manner.

Version 2 changes 02 Feb 2011:

1. Changed unit organizational number sort order so that administrative staff assigned to a unit with an organizational number suffixed with a "Y" do appear as members in that unit but their unit directly follows the unit that is one hierarchical level up, not at the end as one might expect of a normal alphabetical sort for a "Y". In other words, Unit C321Y appears immediately following Unit C321 and before Units C321B and C321D, not after them.
